For more details see the [Advanced Permissions](#) extension page.

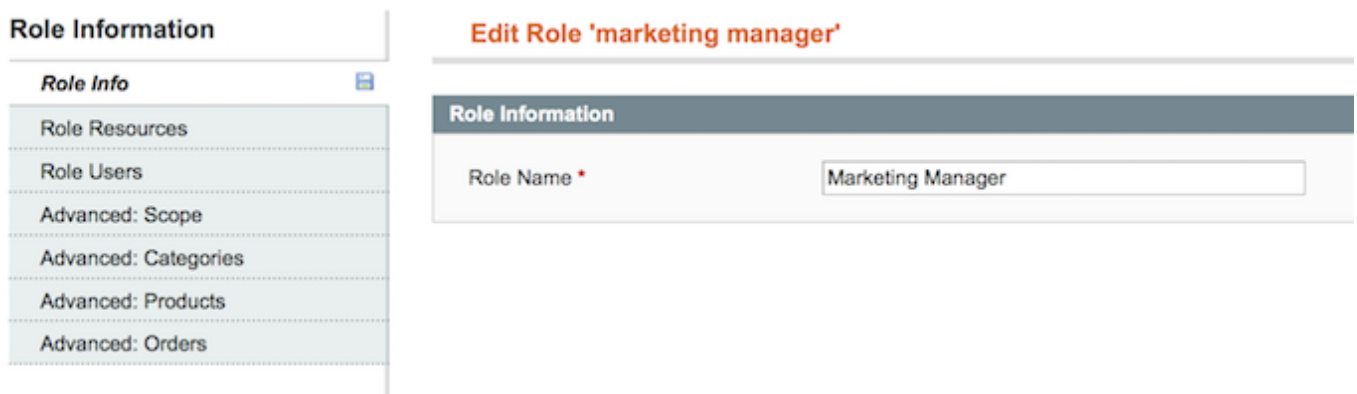

Guide for Advanced Permissions

Distribute permissions for the backend users to provide them with limited access to products, categories, store views, and websites editing. Separate duties between the admin users of your store. Set specific roles for vendors, category managers, etc.

- Limit access by store view and website
- Distribute product and category management
- Quickly assign and duplicate roles
- Implement additional user roles
- Fully compatible with other extensions

Creating a new role

To create a user with the advanced permissions you will need to create a role first. Go to **System → Permissions → Roles** and click the **Add New Role** button.

Then, specify the name of the role and switch to the Role Resources tab.

Role Information

- Advanced: Orders

Edit Role 'marketing manager'

Roles Resources

Resource Access: Custom

Resources:

- Sales
 - Orders
 - Actions
 - Hold
 - Credit Memos
 - Unhold
 - Ship
 - Send Sales Emails
 - Comment
 - Invoice
 - Capture
 - Send Order Email
 - View
 - Reorder
 - Edit
 - Accept or Deny Payment
 - Cancel
 - Create
- Invoices
- Shipments
- Credit Memos
- Terms and Conditions
- Transactions
- Fetch

Here you need to select resources the admin user will have the access to.

You can allow to delete categories and products for sub-admin users.

With the **Allow to view/edit product owner** setting you can change the product owner.
