For more details see the [Auto Add Promo Items](#) extension page.

Guide for Auto Add Promo Items

Automatically add free promo products to cart. Offer promo items with discounts and inform customers about promotions with catchy banners. Make little surprising presents and customers won't hesitate about returning to your store!

- Automatically add free promo items to cart
- Offer promo items with a discount
- Display catchy banners and promo items on product pages
- Clearly indicate promo items in the cart
- Configurable & bundle products support
- Works with coupon codes

Extension Settings

The extension settings can be found in **Admin Panel → System → Configuration → Promo Items.**

Promo Items

Free Shipping For Promo Items	<input type="text" value="Yes"/>	[STORE VIEW]
Calculate Tax For Promo Items	<input type="text" value="Yes"/>	[STORE VIEW]
Apply to Admin orders	<input type="text" value="Yes"/>	[GLOBAL]
Add tax to row subtotal	<input type="text" value="Yes"/> ▲ Please note! This setting will work only for \$X value calculation in "Auto add promo items for every \$X spent" action.	[GLOBAL]
Use base currency for calculate row subtotal	<input type="text" value="Yes"/> ▲ Please note! This setting will work only for \$X value calculation in "Auto add promo items for every \$X spent" action.	[GLOBAL]

General Settings

Message For The Promo Item In The Cart - Here you can specify the default message that will be displayed next to free or discounted promo items in the shopping cart. E.g. Free! or 20% off!

Prefix For The Promo Item Name In The Order - You can indicate the default prefix, with which the promo items will be displayed on order pages in the admin panel.

Add Simple Products Automatically, Without Confirmation - Set this option to 'Yes' to automatically add free simple products to the shopping cart. If the promo item is configurable, clients will see the pop-up window where they can choose the product attributes and configuration options.

Add Downloadable Products Automatically, Without Confirmation - Set to 'yes' to add downloadable products to cart as free gifts automatically.

Free Shipping For Promo Items - Set this option to 'No' if you want to include shipping fee for free promo items in the billing.

Calculate Tax For Promo Items - Set to 'yes' if you want to calculate tax for promo items offered with discounts.

Apply to Admin orders - Set to 'yes' if you want to apply free gift rules to the orders, created by store admins.

Use default currency for calculate row subtotal - Set to 'yes' if you want to recalculate Discount Qty Step (Buy X) value to a base currency when you switch between stores. This option works only for 'Auto add promo items for every \$X' rule.

Promo Items Addition Block

General	
Promo Items Addition Block	
Display Mode	Popup [STORE VIEW]
"Select Promo" Block	Select your BONUS! [STORE VIEW]
<p>▲ Note: Block should include a link, so customer can click on it and open a pop-up window with available promo items</p>	
Open Popup Automatically	Yes ▲ Always open free gift popup on cart page if gift is available
Show Popup on Checkout Page	Yes ▲ Useful for when customers go directly to the checkout process, skipping the cart page
Block's Header Text	Free Items
"Add to Cart" Button Text	Add to cart
Display Mode	Inside Page
Allow to check multiple products for add to cart	Yes
Show Popup on Checkout Page	Yes ▲ Useful for when customers go directly to the checkout process, skipping the cart page
Block's Header Text	Free Items
"Add to Cart" Button Text	Add to cart

Notifications

Limitations

Display Mode - Choose where to display free gifts: either in the popup or in the shopping cart page block.

Select Promo Block - This message is shown in the popup with promo items.

Open Pop-up automatically - Set the option to 'Yes' to open the pop-up automatically if a customer meets the rule's conditions.

Allow to check multiple products for add to cart - Set to 'Yes' if you would like to suggest multiple products as free gifts for adding to the cart.

Show Popup on Checkout Page - Allow the popup to display on the checkout page.

Block's Header Text - Specify the name of the block on the frontend.

"Add to Cart" Button Text - You can also specify the name of the 'Add to Cart' button text on the frontend.

Notifications

General		
Promo Items Addition Block		
Notifications		
Reminder about Available Promos	<input type="text" value="No"/>	[STORE VIEW]
	▲ Display notification if customer did not add any gifts to the cart while having some available	
Display Success Messages	<input type="text" value="Yes"/>	[STORE VIEW]
	▲ Show message like 'Free gift %s was added to your shopping cart'. Can be modified in the app\locale\en_US\Amasty_Promo.csv	
Display Error Messages	<input type="text" value="Yes"/>	[STORE VIEW]
	▲ When there are no enough promo items in stock, or they are disabled.	
Show Stock Warning In Admin Panel	<input type="text" value="No"/>	[STORE VIEW]

Limitations		
Do not Offer Promos for Products with Special Price	<input type="text" value="No"/>	[STORE VIEW]
Do not Offer Promos for Configurable Products with when Child has Special Price	<input type="text" value="No"/>	[STORE VIEW]
Ignore gift products when validating promo rule conditions	<input type="text" value="No"/>	[STORE VIEW]

Reminder about Available Promos - Set to 'Yes' to remind customers about available promo items if they don't add any item to the cart.

Display Success Messages - Set to 'Yes' to display a message that a promo item was added to the cart.

Display Error Messages - Set to 'Yes' to display the error message.

Show Stock Warning In Admin Panel - Set to 'Yes' to be notified if the products you would like to promote are out of stock or disabled.

Limitations

Do not Offer Promos for Products with Special Price - choose 'Yes' if you don't want to show promotions for products with a special price. (It's also relevant for bundle products).

Do not Offer Promos for Configurable Products with when Child has Special Price - choose

'Yes' if you don't want to show promotions for configurable products if any of the child products have a special price.

Ignore gift products when validating promo rule conditions - choose 'No' if you would like to take into account free gifts when you validate promo rule conditions. For example, there are 2 items in the cart. You have the condition "... if Total Items Quantity equals or greater than 3". In this case, if the option is set to 'No' and you have one more rule that adds a free gift to the cart, this gift will be validated as a third item.

Promo Banners Lite settings

Go to **Admin Panel** → **System** → **Configuration** → **Promo Banners Lite**.

Coupon *	<input type="text" value="Specific Coupon"/>
Coupon Code *	<input type="text" value="PROMO4"/>
	<input type="checkbox"/> Use Auto Generation If you select and save the rule you will be able to generate multiple coupon codes.
Uses per Coupon	<input type="text"/>
Uses per Customer	<input type="text" value="0"/> <small>Usage limit enforced for logged in customers only</small>
From Date	<input type="text"/> 
To Date	<input type="text"/> 
Priority	<input type="text" value="0"/>
Public In RSS Feed	<input type="text" value="Yes"/>

Rule name - set the name of the rule for internal reference.

Description - explain how the rule works, specify its purpose and any other details.

Status - define the rule as currently active or not. If you want the rule to go into effect, set Status to 'Active'.

Websites - select the websites where the rule should be applied.

Customer Groups - select the customer groups to which the rule should apply.

Coupon - specify if a coupon is associated with the price rule.

Set 'Specific Coupon' to associate a coupon with the price rule. Then you should either indicate a numeric coupon code to be entered by the customer to receive a discount or select the auto generation checkbox to automatically generate multiple coupon codes.

Uses per coupon - define the number of times the coupon code can be used by a single customer. Coupon codes can be applied only by logged-in customers.

Uses per Customer - determine the number of times the coupon code can be used by the same registered customer from any selected customer group.

From Date - specify the date from which the coupon can be used.

To Date - specify the last date of the coupon validity.

Priority - specify a number that defines the priority of the rule in relation to others.

Public In RSS Feed - set 'Yes' if you want the promotion to be included in your store's public RSS feed.

New discount actions for free promo items

Update prices using the following information

Apply	Percent of product price discount
Discount Amount *	Percent of product price discount
Maximum Qty Discount is Applied To	Fixed amount discount
Discount Qty Step (Buy X)	Fixed amount discount for whole cart
Apply to Shipping Amount	Buy X get Y free (discount amount is Y)
Free Shipping	Automatically add products to cart
Stop Further Rules Processing	Auto add promo items for the whole cart
Auto add simple products automatically, without confirmation.	Auto add promo items with products
	Auto add the same product
	Auto add promo items for every \$X spent
	Add gift with each N-th product in the cart
	No
	No
	As default

Apply the rule only to cart items matching the following conditions (leave blank for all items)

 In order to use attributes like SKU or Manufacturer, please activate 'Use for Promo Rule Condition' option in [Product Attributes](#).

With the extension you get four new discount actions:

- 'Auto add promo items with products' -
- 'Auto add promo items for the whole cart',
- 'Auto add the same product'
- 'Auto add promo items for every \$X spent'
- 'Add gift with each N-th product in the cart'.

Auto Add promo items with products

Create promotions like 'Get one X for each two A in the cart.'

Update prices using the following information

Apply	Auto add promo items with products <input type="text"/> Please see usage example .
Number Of Gift Items *	<input type="text" value="1"/>
Type	All SKUs below <input type="text"/>
Promo Items	wbk002c <input type="text"/> Comma separated list of the SKUs
Maximum Qty Discount is Applied To	<input type="text" value="1"/>
Discount Qty Step (Buy X)	<input type="text" value="2"/>
Stop Further Rules Processing	No <input type="text"/>
Auto add simple products automatically, without confirmation.	As default <input type="text"/>

Apply the rule only to cart items matching the following conditions (leave blank for all items)

 In order to use attributes like SKU or Manufacturer, please activate 'Use for Promo Rule Condition' option in [Product Attributes](#).

If **ALL** of these conditions are **TRUE** :

SKU is one of [wbk004, wbk005, wbk003](#) 

Number Of Gift Item - specify the number of promo items provided for each discount step.

Type - Set 'All SKU's below' to automatically add to cart all promo items. Set 'One of the SKUs below' to let customers choose one of the available promo items specified in the field below. With the actions "Auto add promo items for the whole cart" and "Auto add promo items with products" you can choose whether to add all the products with specified SKUs automatically or let customers select only one free product.

Promo Items - specify SKUs of the free gifts. Insert comma separated SKUs of promo products.

Maximum Qty Discount is Applied To - Indicate Maximum Qty Discount to choose the maximum number of free products, a customer can get per order. If a customer should get only 1 free item no matter if he spends \$100 or \$200, specify "1". Leave "0" to have no limits.

Discount Qty Step (Buy X) - here you need to indicate the number of products a customer should add to the cart to trigger the promo rule.

Auto add promo items for every \$X spent

This action adds free gift items to the cart automatically each time a customer spends the particular sum of money.

Update prices using the following information

Apply	Auto add promo items for every \$X spent Please see usage example .
Number Of Gift Items *	0
Type	All SKUs below
Promo Items	<input type="text"/> Comma separated list of the SKUs
Maximum Qty Discount is Applied To	1
Discount Qty Step (Buy X)	2
Stop Further Rules Processing	No
Auto add simple products automatically, without confirmation.	As default

Apply the rule only to cart items matching the following conditions (leave blank for all items)

 In order to use attributes like SKU or Manufacturer, please activate 'Use for Promo Rule Condition' option in [Product Attributes](#).

If **ALL** of these conditions are **TRUE** :

Maximum Qty Discount is Applied To - set a maximal limit (maximal sum) for a discount application. To set no limits specify zero value.

Discount Qty Step (Buy X) - Specify a discount step. In our case, the step equals to 100. It means that a customer will get one free gift for each \$100 spent. If the cart subtotal equals to \$1000, the customer will get 10 gifts etc.

Auto add promo items for the whole cart

This action lets you provide a promo item (or items) only once in one order.

Shopping Cart Price Rule

- Rule Information
- Conditions
- Actions**
- Labels
- Promo Items Price

New Rule

Update prices using the following information

Apply	Auto add promo items for the whole cart ▼
Discount Amount *	1
Type	One of the SKUs below ▼
Promo Items	X, Y, Z <small>▲ Comma separated list of the SKUs</small>
Stop Further Rules Processing	No ▼

Type - Set 'All SKU's below' to automatically add to cart all promo items. Set 'One of the SKUs below' to let customers choose one of the available promo items specified in the field below. With the actions "Auto add promo items for the whole cart" and "Auto add promo items with products" you can choose whether to add all the products with specified SKUs automatically or let customers select only one free product.

Auto add the same product

This action adds as a free gift the same item as a customer added to the cart. You can create promotions like 'Buy 2 shirts, get one free', 'Buy 3 items, get 1 free', etc. Simple and configurable products are supported by this actions.

Update prices using the following information

Apply	Auto add promo items with products <input type="text"/> Please see usage example .
Number Of Gift Items *	<input type="text" value="1"/>
Type	All SKUs below <input type="text"/>
Promo Items	wbk002c <input type="text"/> Comma separated list of the SKUs
Maximum Qty Discount is Applied To	<input type="text" value="1"/>
Discount Qty Step (Buy X)	<input type="text" value="2"/>
Stop Further Rules Processing	No <input type="text"/>
Auto add simple products automatically, without confirmation.	As default <input type="text"/>

Apply the rule only to cart items matching the following conditions (leave blank for all items)

 In order to use attributes like SKU or Manufacturer, please activate 'Use for Promo Rule Condition' option in [Product Attributes](#).

If **ALL** of these conditions are **TRUE** :

SKU **is one of** wbk004, wbk005, wbk003 

Add gift with each N-th product in the cart

With this action, you can reward your customers with free items for each N-th product in the cart. For example, 'Get a free T-shirt for each 2nd item in the cart.' Thus, when a customer adds 2 products to the cart - he/she will get a gift. If he/she add one more item, the total qty will be 3, so a customer will still have only one gift. With one more item, the total qty will be 4 and he/she will get a new gift. And so on for qty 6, 8, 10, and etc.

Update prices using the following information

Apply	<input type="text" value="Add gift with each N-th product in the cart"/> ▼ <small>Please see usage example.</small>
Number Of Gift Items *	<input type="text" value="1"/>
Type	<input type="text" value="All SKUs below"/> ▼
Promo Items	<input type="text" value="24-WG08"/> <small>Comma separated list of the SKUs</small>
Maximum Qty Discount is Applied To	<input type="text" value="0"/>
Each N-th	<input type="text" value="3"/>
Stop Further Rules Processing	<input type="text" value="No"/> ▼
Auto add simple products automatically, without confirmation.	<input type="text" value="As default"/> ▼

Number Of Gift Items - specify how many gift items a customer will get if the cart will meet the conditions in the rule.

Type - set 'All SKU's below' to add all gift items automatically or 'One of the SKUs below' to let customers choose one of the available gifts specified in the field below.

Promo Items - specify SKUs of the free gifts. If you have more than 1 SKU, separate them by a comma.

Maximum Qty Discount is Applied To - set a maximal limit (maximal sum) for a discount application. To set no limits specify zero value.

Each N-th - here you need to specify the discount step.

Stop Further Rules Processing - turn on this option if you want to stop other cart price rules when this option is applied.

Auto add simple products automatically, without confirmation. - enable adding different product types to cart automatically. Thus, if a gift item is, for example, configurable, a customer will see a popup where he or she selects the product's options (size, color, etc.).

Conditions

- Rule Information
- Conditions**
- Actions
- Labels
- Promo Items Price
- Product Page Banner

Apply the rule only if the following conditions are met (leave blank for all products)

In order to use attributes like SKU or Manufacturer, please activate 'Use for Promo Rule Condition' option in [Product Attributes](#).

If **ALL** of these conditions are **TRUE** :

If **total quantity equals or greater than 1** for a subselection of items in cart matching **ALL** of these conditions:

- Category **is 24**

- Rule Information
- Conditions
- Actions**
- Labels
- Promo Items Price
- Product Page Banner

Update prices using the following information

Apply: Auto add promo items with products
Please see [usage example](#).

Number Of Gift Items * : 1

Type: All SKUs below

Promo Items: ab1009
Comma separated list of the SKUs

Maximum Qty Discount is Applied To: 5

Discount Qty Step (Buy X): 1

Stop Further Rules Processing: No

Auto add simple products automatically, without confirmation: As default

Apply the rule only to cart items matching the following conditions (leave blank for all items)

In order to use attributes like SKU or Manufacturer, please activate 'Use for Promo Rule Condition' option in [Product Attributes](#).

If **ALL** of these conditions are **TRUE** :

-

Use the conditions block to specify items to which the rule should be applied. According to the example above, a free camera case will be automatically added to the cart for each product from the 'Digital Cameras' category. For example, if a customer adds two cameras to the cart, he or she will get two free camera cases.

Order Label

Prefix For The Promo Item Name In The Order

At the 'Labels' tab you can specify the promo text which will be displayed in the shopping cart and on the backend order page when the rule gets applied.

Promo Items with discounts

Now you can offer not only free items, but the items with discounts.

Discount	
Promo Items Discount	<input type="text" value="20%"/> <small>Set fixed price (e.g. 20), fixed discount (-20) or a percent discount (e.g. 50%).</small>
Minimal Price	<input type="text" value="30"/>

Original Price	
Show Discount on the Cart Page	<input type="text" value="No"/>
Show Original Price in the Popup (Special Price if Set)	<input type="text" value="Yes"/>

Shipping	
Free Shipping for Promo Items	<input type="text" value="Use config"/>

Promo Items Discount - Here you can specify the discount for promo items:

- Fixed price (e.g. 100);
- Fixed discount (e.g. 20);
- Percent discount (e.g. 20%);

Minimal price - if you don't want the discounted price be lower than a particular value - specify this value in this field.

Show Discount on the Cart Page - choose 'Yes' to show the original price and the price with a discount on the cart page.

Show Original Price in the Popup (Special Price if Set) - choose 'Yes' to display the original (or a special price if it is set) and the discounted prices in the popup with promo items.

Free Shipping for Promo Items - Set either free shipping or paid shipping for the promo items. If you choose the 'Config' option - the default shipping settings will be applied.

To add more conditions to the shopping cart price rules, please, go to **Admin Panel → Catalog → Attributes → Manage Attributes → choose the attribute → Frontend Properties** section. Please find 'Use for Promo Rule Conditions' field and set it to 'Yes'.

After you activate the attribute for the discount rules, it will be available in *Conditions* section of the shopping cart price rules.

On the order view page in the admin panel, the free item is prefixed with the message that you specify in the configuration section or in the label section for each specific rule of the extension.

Items Ordered								
Product	Item Status	Original Price	Price	Qty	Subtotal	Tax Amount	Discount Amount	Row Total
