For more details see the [Extended Product Grid with Editor](#) extension page.

Guide for Extended Product Grid with Editor

Save time by editing products right on the Magento product grid. Add necessary attributes to display all required data for comprehensive store products management.

- Add extra attributes to the product grid
- Edit product attributes right on the grid
- Sort and filter the added attributes
- Display product images and find items without thumbnails
- Extend the grid with product categories

Extension Configuration

To configure the extension please go to **System → Configuration → Amasty Extensions → Extended Product Grid with Editor**.

General Settings		
Allow to sort columns	<input type="text" value="Yes"/>	[GLOBAL]
Default number of records per page	<input type="text" value="30"/>	[GLOBAL]
Display the Totals row	<input type="text" value="Yes"/>	[GLOBAL]

Allow to sort columns — choose **Yes** to enable the ability to sort attribute columns on the product grid;

Default number of records per page — choose how many records per page will be displayed on the grid;

Display the Totals row — choose to display the 'Totals' row or not;

Editing Settings		
Editing Mode	<input type="text" value="Single Cell"/>	[GLOBAL]
<small>▲ Single Cell - data is being saved right after any cell is edited. Multi Cell - Save button should be clicked after data in multiple cells has been edited.</small>		

Editing mode — choose the **Multi Cell** mode to save multiple edits at once. When the **Single Cell** mode is selected, modifications are automatically saved one by one;

Grid Attribute Columns		
Allow different attribute columns for different admin users	<input type="text" value="Yes"/>	[GLOBAL]
Image type for the thumbnail column	<input type="text" value="Thumbnail"/>	[GLOBAL]
Enable zoom for thumbnail image	<input type="text" value="Yes"/>	[GLOBAL]

Allow different attribute columns for different admin users — allow adding different attribute columns to the grid for different admin users;

Image type for the thumbnail column — define the image type that will be used in the 'Thumbnails' column:

- Base image
- Small image
- Thumbnail
- Image carousel

Enable zoom for thumbnail image — set **Yes** to see enlarged thumbnails on hover;

Additional Grid Columns		
Qty Sold To	<input type="text" value="5/29/15"/> 	[GLOBAL]
Qty Sold From	<input type="text" value="1/4/13"/> 	[GLOBAL]
Enable category filter	<input type="text" value="Yes"/> ▲ Allow to filter by category on the product grid, but increases server load. "Show category information" option should be set to "Yes" in order to make this setting work.	[GLOBAL]
Show child categories	<input type="text" value="Yes"/> ▲ For Magento 1.7+ only. Option allows to include child categories products if "is_anchor" option checked	[GLOBAL]
Products Qty	<input type="text" value="5"/> ▲ Related to: related product, up-sells, cross-sells	[STORE VIEW]
Share attribute templates between users	<input type="text" value="Yes"/>	[GLOBAL]

Qty Sold To and **Qty Sold From** — specify the required calendar scale to see product quantity sold during the certain time period;

Enable category filter — show product categories on the grid and enable category filter;

Show child categories — make visible the products from the lower categories on the grid;

Products Qty — specify how many related products, up-sells, cross-sells will be displayed on the grid;

Share attribute templates between users — enable the option to allow all admin users to share the attribute templates;

Conditional Modifications

Quantity Based Availability [GLOBAL]

▲ When set to yes, availability will automatically change to 'In stock' when quantity is positive and to 'Out of stock' when quantity is zero or negative. When set to 'No', availability status will not be updated automatically.

Quantity Based Availability — when the **Quantity Based Availability** option is set to **Yes**, availability will automatically change to 'In stock' when quantity is positive and to 'Out of stock' when quantity is zero or negative. Please set to **No** if you prefer to indicate availability status manually.

Product Grid Actions

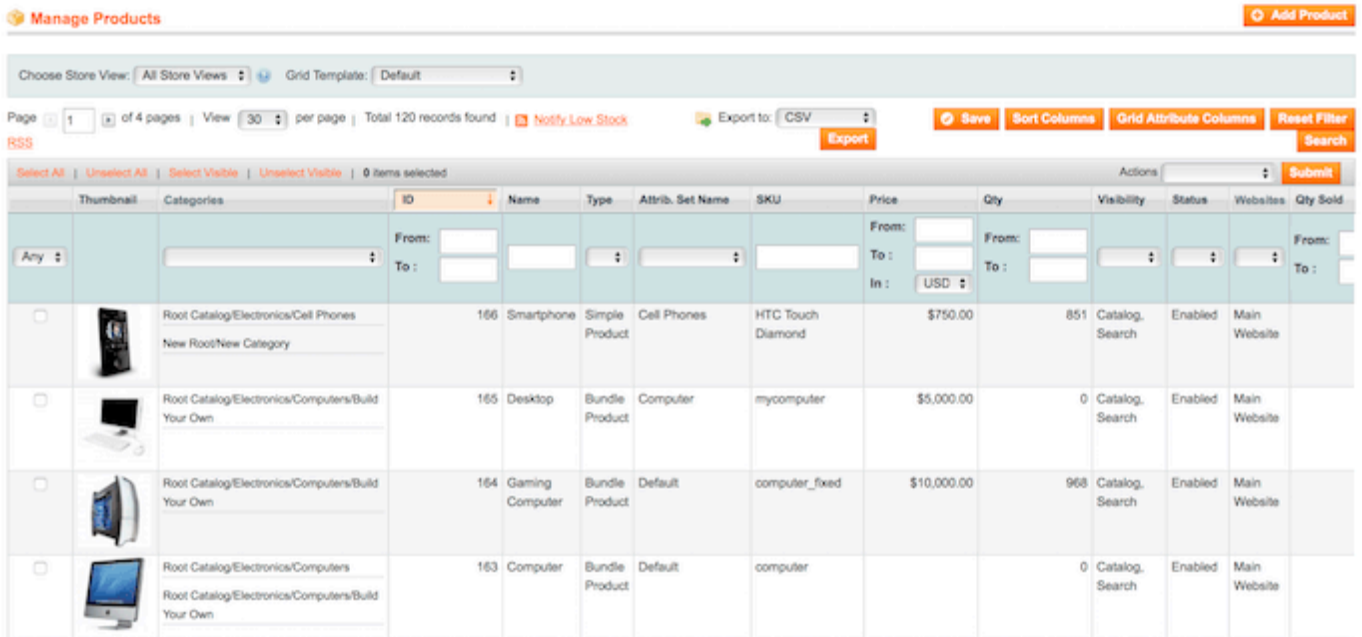

To access the product grid go to **Catalog** → **Manage Products**.

Editing Modes

Thumbnail	Categories	ID	Name	Type	Attrib. Set Name	SKU	Price	Qty	Visibility	Status	Websites	Qty Sold
<input type="checkbox"/>	Root Catalog/Electronics/Cell Phones New Root/New Category	166	Diamond	Simple Product	Cell Phones	HTC Touch Diamond	\$750.00	851	Catalog, Search	Enabled	Main Website	
<input type="checkbox"/>	Root Catalog/Electronics/Computers/Build Your Own	165	My Computer	Bundle Product	Computer	mycomputer	\$5,000.00	0	Catalog, Search	Enabled	Main Website	
<input type="checkbox"/>	Root Catalog/Electronics/Computers/Build Your Own	164	Gaming Computer	Bundle Product	Default	computer_fixed	\$10,000.00	968	Catalog, Search	Enabled	Main Website	
<input type="checkbox"/>	Root Catalog/Electronics/Computers Root Catalog/Electronics/Computers/Build Your Own	163	Computer	Bundle Product	Default	computer		0	Catalog, Search	Enabled	Main Website	

At first, set up the editing mode (go to **System** → **Configuration** → **Amasty Extensions** → **Extended Product Grid with Editor** → **Editing Settings** tab). In the **Single Cell** mode to edit some information (e.g. price) just click on the field you would like to edit. After you've entered the

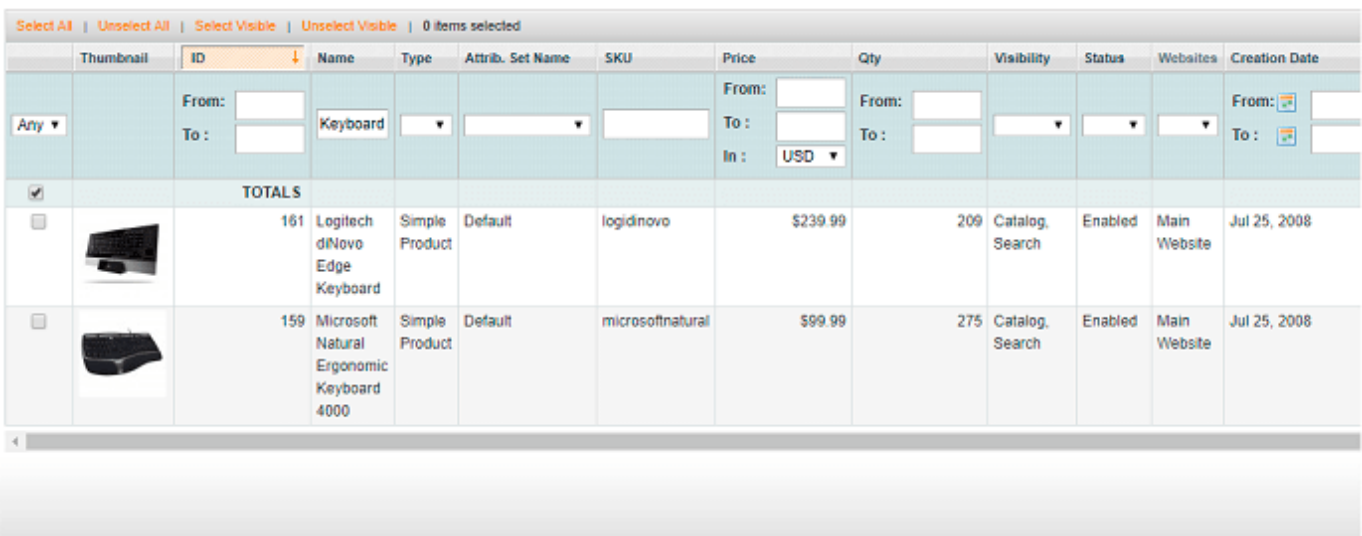

necessary info, please click any spot outside the field for the data to get saved.

In the **Multi Cell** mode to edit some information (e.g. quantity) just click on the fields you would like to edit. When you've entered the necessary info, please click the **Save** button.

In case you leave the field empty or enter wrong characters (e.g. letters in the price field), the extension will ask you to fill in the field correctly.

Sorting and Filtering

Click the required column to sort it. Also, you can fill in the empty field to apply a filter to this column.

Adding Extra Attributes to the Grid

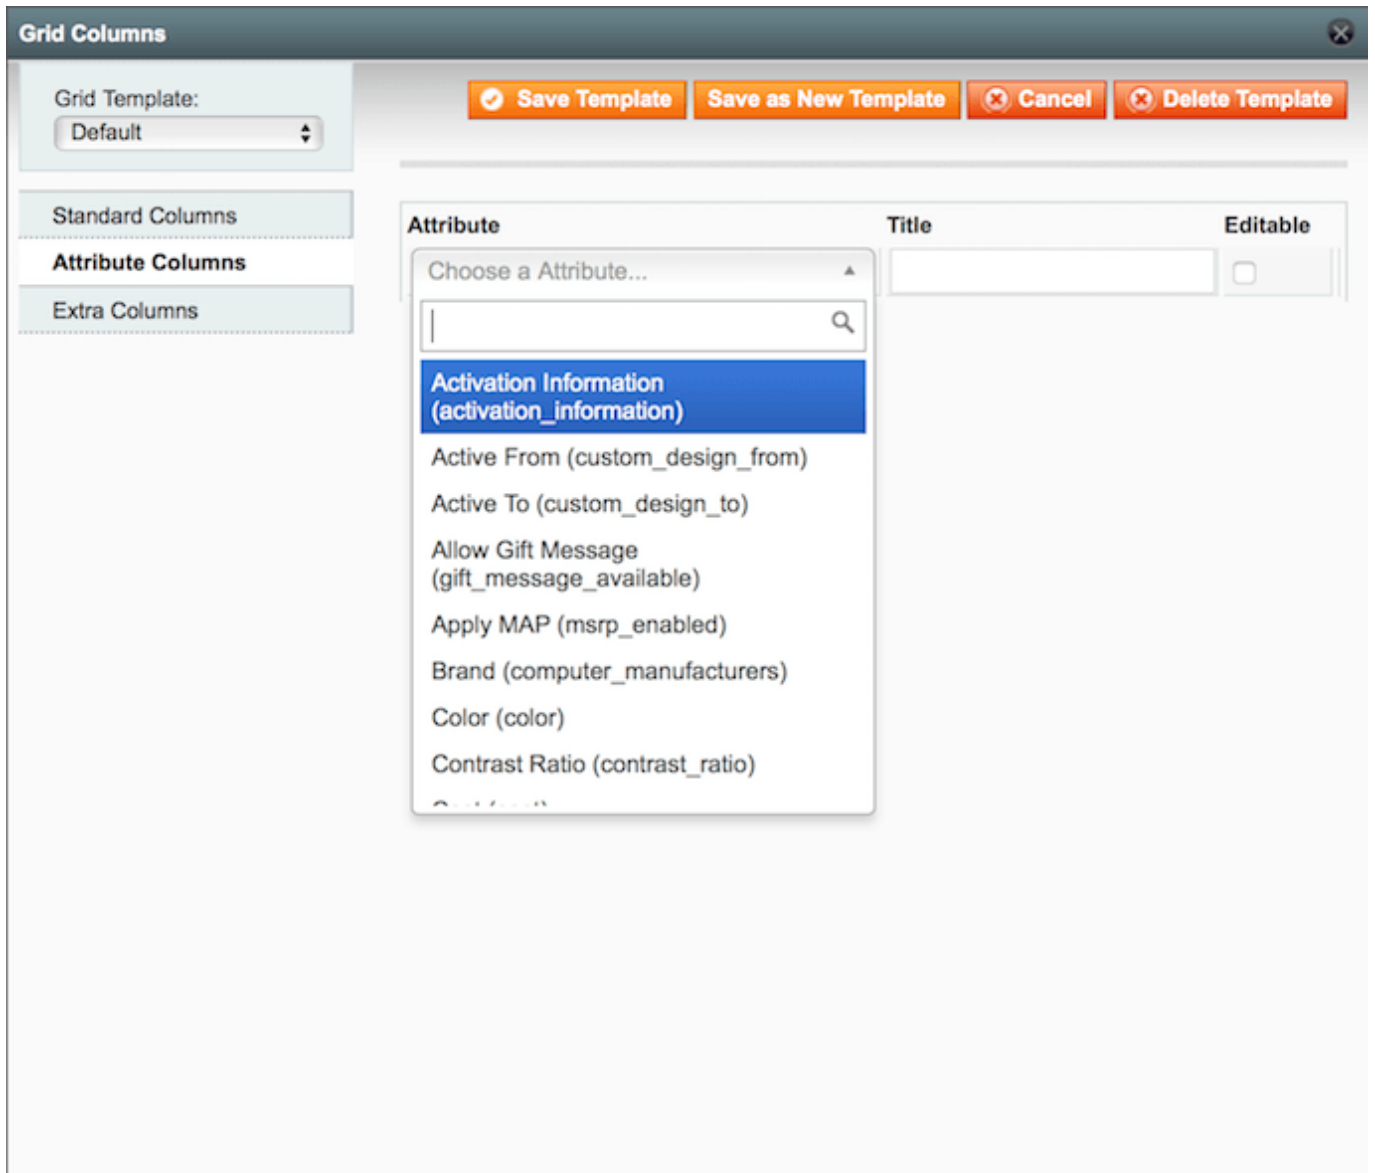

To specify which attribute columns will be displayed on the grid and create a new grid template, click

the **Grid Attribute Columns** button.

The screenshot shows the 'Grid Columns' configuration window. On the left, there is a 'Grid Template' dropdown menu currently set to 'Default'. Below it are three tabs: 'Standard Columns', 'Attribute Columns', and 'Extra Columns'. The 'Standard Columns' tab is active. At the top right of the main area, there are four buttons: 'Save Template', 'Save as New Template', 'Cancel', and 'Delete Template'. The main area contains a table with the following columns: 'Visible', 'Column', 'Title', and 'Editable'. The table lists 12 standard columns, all of which are checked as 'Visible'. The 'Editable' column has checkboxes for each row, with 'Name', 'SKU', 'Price', 'Qty', and 'Status' checked.

Visible	Column	Title	Editable
<input checked="" type="checkbox"/>	ID	ID	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Name	Name	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	Type	Type	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Attrib. Set Name	Attrib. Set Name	<input type="checkbox"/>
<input checked="" type="checkbox"/>	SKU	SKU	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	Price	Price	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	Qty	Qty	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	Visibility	Visibility	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Status	Status	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	Websites	Websites	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Action	Action	<input type="checkbox"/>

On the **Standard Columns** tab you can specify standard columns that will be displayed on the grid and define which of the columns will be editable by flagging the appropriate checkboxes.

On the **Attribute Columns** tab you can add the required attribute columns, set their titles and make them editable.

The screenshot shows the 'Grid Columns' configuration interface. On the left, there is a 'Grid Template' dropdown menu currently set to 'Default'. Below it are three tabs: 'Standard Columns', 'Attribute Columns', and 'Extra Columns'. The 'Extra Columns' tab is active, displaying a table of columns. At the top right of the main area are four buttons: 'Save Template', 'Save as New Template', 'Cancel', and 'Delete Template'. The table below has four columns: 'Visible', 'Column', 'Title', and 'Editable'.

Visible	Column	Title	Editable
<input checked="" type="checkbox"/>	Thumbnail	Thumbnail	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Categories	Categories	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Front End Product Link	Front End Product Link	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Availability	Availability	<input type="checkbox"/>
<input type="checkbox"/>	Creation Date	Creation Date	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Qty Sold	Qty Sold	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Last Modified Date	Last Modified Date	<input type="checkbox"/>
<input type="checkbox"/>	Related Products	Related Products	<input type="checkbox"/>
<input type="checkbox"/>	Up Sells	Up Sells	<input type="checkbox"/>
<input type="checkbox"/>	Cross Sells	Cross Sells	<input type="checkbox"/>
<input type="checkbox"/>	Low Stock	Low Stock	<input type="checkbox"/>

On the **Extra Columns** tab you can specify additional columns that should be added to the grid.

You can save the current configuration as a new template or overwrite the existing template data using the appropriate buttons. To switch between templates please use the **Template** dropdown menu.

Moreover, when the **Share Attribute Templates Between Users** option is enabled, the templates can be used by other admin users. You can [see how to](#) enable the option here.

Find out how to install the Extended Product Grid with Editor extension via [Composer](#).
