

amasty

For more details see the [Extra Fee](#) extension page.

Extra Fee

Create extra fees for any additional store service just in a few clicks. Display fee options on the cart and the checkout pages to draw customers' attention.

- Design an unlimited number of fees according to your needs
- Accurately set up fees options
- Manage fees' display
- Specify the pages to display fees' options on
- Choose an input type for each particular fees block

General Settings

To configure general extension settings, please, go to **System → Configuration → Amasty Extensions → Extra Fee**.

The screenshot shows the Magento admin interface for configuring the 'Extra Fee' extension. At the top, there are navigation tabs for 'Sales', 'Catalog', 'Customers', and 'System', with 'System' selected. Below the tabs is a 'Latest Message' banner. The main content area is titled 'Extra Fee' and includes a 'Save Config' button. On the left, there is a sidebar with a 'Current Configuration Scope' dropdown set to 'Default Config' and a navigation menu showing 'AMASTY EXTENSIONS' > 'Extra Fee' > 'SALES' > 'Tax' (selected). The main configuration area is divided into two sections: 'Calculation' and 'Tax'. The 'Calculation' section has three rows: 'Include discount in subtotal' (Yes), 'Include tax in subtotal' (Yes), and 'Include shipping in subtotal' (Yes), each with a '[STORE VIEW]' link. The 'Tax' section has two rows: 'Tax Class for Checkout Fees' (None) and 'Display Fee Including Tax' (Taxable Goods), both with '[STORE VIEW]' links. A dropdown menu is open for 'Tax Class for Checkout Fees', showing options: 'None', 'Taxable Goods', 'Shipping', and 'Tax Exempt'.

The **General** tab:

Include discount in subtotal - enable if you want the subtotal to include discounts.

Include tax in subtotal - set to **Yes** to make the subtotal include taxes.

Include shipping in subtotal - enable to include shipping cost in subtotal.

The **Tax** tab:

Tax Class for Checkout Fees - specify the type of tax that should be used for calculation.

Display Fee Including Tax - set to **Yes** to add a fee tax to the checkout fees grand total. A fee tax is included in the total tax value by default.

A new fees block creation

To create a new fees block, please, go to **Sales → Extra Fee**.

Store View *	All Store Views Main Website Madison Island English French German

Enabled - switch to **Yes** to enable displaying of fees block.

Fee Name - give a name to the fee. The customers will see it on the frontend.

Fee Input Type - choose one of the available input types for fee options: **Dropdown**, **Checkbox** or **Radio Button** types.

Sort Order - specify the position of the fee displaying on the frontend. Set **0** to the highest position.

Description - give a short description of a new service to provide customers with additional information.

Customer Groups - choose customer groups for which this fees block will be available.

Store View - specify store views in which the fees block will be shown.

German

Cart - select **Yes** if you want to show fees block on the shopping cart page.

Checkout - choose the checkout step on which the fees block should be displayed.

Autoapply - set the field to **Yes** to automatically apply fees based on certain conditions.

To enable the auto application, you also need to set the default fee value (precisely this fee will apply automatically). To set the default fee value, go to the **Fee Options** tab and choose the option by default:

Title - Default*	Title - English	Title - French	Title - German	Price *	Price Type	Position	Is Default	<input type="button" value="Add Option"/>
<input type="text" value="Box"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text" value="3.0000"/>	<input type="text" value="Fixed"/>	<input type="text" value="1"/>	<input type="radio"/>	<input type="button" value="Delete"/>
<input type="text" value="Box and a gift car"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text" value="5.0000"/>	<input type="text" value="Fixed"/>	<input type="text" value="2"/>	<input checked="" type="radio"/>	<input type="button" value="Delete"/>
<input type="text" value="Box and a ribbon"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text" value="7.0000"/>	<input type="text" value="Fixed"/>	<input type="text" value="3"/>	<input type="radio"/>	<input type="button" value="Delete"/>

Note! If the default fee option is not specified, the extra fee won't apply automatically.

On the **Store View Specific Labels** tab you can specify labels for different store views. The labels will be shown instead of the default fees block name.

Fee Options

Checkout Fees

Title - Default*	Title - English	Title - French	Title - German	Price *	Price Type	Position	Is Default	 Add Option
Simple box	Simple box	Boîte	Box	3.0000	Fixed ▼	1	<input checked="" type="radio"/>	 Delete
Box and a gift car	Box and a gift car	Boîte et une carte	Box und eine Ges	5.0000	Fixed ▼	2	<input type="radio"/>	 Delete
Box and a ribbon	Box and a ribbon	Boîte et un ruban	Box und ein Band	7.0000	Fixed ▼	3	<input type="radio"/>	 Delete

Fill in the fields to set up fee options. You can set either a percent or a fixed price for extra fees. You can also set a particular option as default. In this case, the option will be automatically chosen unless a customer selects another one.

You can add extra fee variables to PDF/ HTML invoice templates.

Conditions

Checkout Fees

Apply the fee only if the following conditions are met

If **ALL** of these conditions are **TRUE** :

- Please choose a condition to add...
- Products subselection
- Conditions combination
- Cart Attribute**
 - Checkoutfees amount
 - Subtotal
 - Subtotal Including Taxes
 - Taxes Amount
 - Discount Amount
 - Total Items Quantity
 - Total Weight**
 - Payment Method
 - Shipping Method
 - Shipping Amount
 - Shipping Postcode
 - Shipping Street
 - Shipping Region
 - Shipping State/Province
 - Shipping Country
 - Shipping City
 - Customer Email

Use

flexible conditions to display fees block. You can show fees based on products subselection and cart attributes. In case a customer meets the conditions he/she will see the fees block on the cart and checkout pages. Use conditions combination to create complex rules for the fees block display.

To show the block to all customers, don't specify any conditions.

Checkout Fees

Calculation

Include discount in subtotal

Include tax in subtotal

Include shipping in subtotal

Include discount in subtotal - choose whether to subtract the discount amount from the subtotal.

Include tax in subtotal - choose whether you want to include the amount of tax in the subtotal.

Include shipping in subtotal - set to **Yes** to include shipping cost in the subtotal.

When you set these options to **Default**, the fee will be calculated as it is set in the extension settings.

Frontend Examples

You can show extra fees either on Shipping method or Order Review steps.
