For more details see the [Stripe Payment](#) extension page.

# Guide for Stripe Payment

Simply integrate your Magento store with a flexible and fast-growing payment gateway - Stripe and provide your customers with a user-friendly and safe payment experience.

- Manage Stripe via Magento admin panel
- Easily integrate your store with next-gen payment gateway
- Allow payment via the most popular credit and debit cards
- Make your payment user-friendly
- Fully compliant with the [PSD2 European legislation](#)

The Magento Stripe Payment extension is fully compliant with the **Revised Directive on Payment Services (PSD2)** that strives to create a secure payment process. It went into full effect on September 14, 2019. Please, re-install or update the extension to a version 2.0.0 or higher to get all benefits of [Strong Customer Authentication](#) and [3D Secure v2](#).

---

## How to integrate merchant's Stripe account with a Magento store?

First, go to **System > Configuration > Sales > Payment Methods > Stripe**

## Payment Methods

 Save Config

Not sure what PayPal payment method to use? Click [here](#) to learn more.

|                                 |                                       |              |
|---------------------------------|---------------------------------------|--------------|
| Enabled                         | Yes ▼                                 | [WEBSITE]    |
| Title                           | Credit Card Via Stripe                | [STORE VIEW] |
| API Publishable Key             | <input type="text" value="REDACTED"/> | [WEBSITE]    |
|                                 | ▲ You can get it <a href="#">here</a> |              |
| API Secret Key                  | <input type="text" value="REDACTED"/> | [WEBSITE]    |
|                                 | ▲ You can get it <a href="#">here</a> |              |
| Merchant Country                | United States ▼                       | [WEBSITE]    |
| Successful Payment Order Status | Processing ▼                          | [STORE VIEW] |
| Failed Payment Order Status     | Pending ▼                             | [STORE VIEW] |
| Sort Order                      | 1                                     | [WEBSITE]    |

To activate the payment method click **Enable** - 'Yes'.

Specify the frontend title of the Stripe payment in the '**Title**' field.

**API Publishable Key** - get the key from your [Stripe account](#)

**API Secret Key** - and this key you can also find in your [Stripe account](#)

| NAME            | TOKEN     |                         | LAST USED    | CREATED     |     |
|-----------------|-----------|-------------------------|--------------|-------------|-----|
| Publishable key | [blurred] | [i]                     | Apr 20, 2018 | Apr 2, 2018 | ... |
| Secret key      | [blurred] | [Reveal test key token] | Apr 20, 2018 | Apr 2, 2018 | ... |

**Merchant Country** - here you need to name a merchant's country that you set in the Stripe Account.

**Successful Payment Order Status** - automatically set the *Pending* or *Processing* status for orders that have successfully received payment from a customer.

**Failed Payment Order Status** - automatically set the *Pending* or *Processing* status for orders that failed payment transaction from a customer to speed up an order management.

**Sort Order** - here you can set the order in which the payment methods will be displayed on the checkout page.

For more information, please, visit [Stripe documentation](https://stripe.com/docs) (it's really nice indeed).
