For more details see how the [Auto Invoice and Shipment for Magento 2](#) extension works.

Guide for Auto Invoice and Shipment by Webiators for Magento 2

Save time on manual transaction processing by automatically performing invoice and shipment generation with Magento 2 Auto Invoice and Shipment Extension. Enhance customer experience and strengthen their trust by offering quick and convenient confirmation of payment documents.

- Create invoice automatically as soon as order created
- Configure automatic shipment generation
- Keep customers updated with e-mail notifications
- Enable for particular payment methods
- Easily configure from admin panel

Configuration

How to Install

Download the “Ready to paste” package from your customer's area, unzip it and upload all files in 'app/code/Webiators/AutoInvoiceAndShipment' folder to your Magento install dir.

Update the Database

Move to Magento Root directory with CLI and execute below commands:

- php bin/magento setup:upgrade
- php bin/magento setup:di:compile
- php bin/magento setup:static-content:deploy
- php bin/magento cache:flush
- php bin/magento cache:clean

How to Use

Go to **Admin Panel** ⇒ **Store** ⇒ **Settings** ⇒ **Configuration**⇒**WEBIATORS**⇒ **Auto Invoice and Shipment**.

Choose 'Yes/No' to Enable or Disable Extension.
