

**amasty**

For more details see the [Call for Price for Magento 2](#) extension page.

# Guide for Call for Price for Magento 2

Replace the price button with a link, image or redirect customers to a particular custom form. Show 'Call for Price' button to specific categories or customer groups. Easily stimulate to sign up or provide feedback.

- Hide the price info from particular customer groups
  - Replace buttons with flexible options
  - Show prices for specific categories only
  - Collect additional data via popup
  - Redirect customers according to your business goals
- 

## Before Configuration

To run the module on Magento 2.3, Zend DOM package should be installed. Please, run the following command in the SSH: **composer require zendframework/zend-dom**

## General Settings

To configure the extension, go to **Stores → Configuration → Hide Price**.

Expand the **General Settings** tab.

### General Settings

**Enable Extension**  
[store view]

Yes

Choose 'Yes' to hide the price for the selected product categories and customer groups

**Hide Price for Selected Category(s)**  
[store view]

Root Catalog  
Default Category  
Gear  
Bags  
Fitness Equipment  
Watches

Product price will be hidden for the selected product categories only

**Hide Price for Selected Group(s)**  
[store view]

NONE  
NOT LOGGED IN  
General  
Wholesale  
Retailer

Product price will be hidden for the selected customer groups only

**Enable Extension** - choose Yes to hide the price for selected categories and customer groups.

**Hide Price for Selected Category(s)** - specify the categories for which all product prices will be hidden.

**Hide Price for Selected Group(s)** - select customer groups for which the prices in selected categories will be hidden.

With the extension it is possible to hide prices for specific products. Go to **Products → Catalog**, choose the necessary product and disable price visibility in the **Hide Price** tab. Here you can also specify a customer group for which the product price won't be displayed.

## Hide Price

Display Price Mode  
[store view]

Hide	▲

----	---

Hide wishlist link when price is hidden

Hide "Add to Compare"  
[store view]

No	▼
----	---

Hide compare link when price is hidden

**Replace 'Add to Cart' Link with** - select the way to replace 'Add to Cart' link.

**Custom Form** - if *Link to Custom URL* is chosen, specify the particular link. If *Popup with Custom Form* is selected, choose the form to be used.

See our [Custom Form for Magento 2](#) extension to create custom quote request forms of various types.

**Hide Add to Wishlist** - hide or display the "Add to Wishlist" option.

**Hide Add to Compare** - enable or disable adding products to the comparison.

You can let your customers add products to wishlists and compare even when their prices are hidden.

---

## Frontend Options

### Frontend Options

**Hide Price Text**  
[store view]

Call for Price

Display the above text when price is hidden, e.g. 'Call for Price'

**Custom CSS Styles for Hide Price Link**  
[store view]

```
font-size: 16px;background: #eeeeee; display: inline-block;border: 1px solid #cccccc; color: #333333;cursor: pointer;display: inline-block;padding:
```

Customize the CSS Styles for the Hide Price Link

**Upload Image**  
[store view]

No file selected.

Show the uploaded image instead of price

**Link Url**  
[store view]

AmastyHidePricePopup

Use text 'AmastyHidePricePopup' for opening Ajax Popup with a 'Get a Quote' form Insert the page URL to redirect customers to any page you need

**Hide Price Text** - display the above text when price is hidden.

**Custom CSS Styles for "Hide Price Link"** - customize the button display (which is used instead of "Add to Cart").

**Upload Image** - download any image to show instead of a price.

**Link Url** - insert any link you need to redirect customers to the necessary store page. By default a "Get a Quote" form code is specified.

---

## Admin Email Notifications

The extension is able to notify about new 'Get a Quote' requests.

### Admin Email Notifications

**Send Email to**   
[store view]  
Leave Empty to Disable Notifications

**Email Sender**   
[store view]

**Email Template**   
[store view]  
Email template chosen based on theme fallback when "Default" option is selected

**Send Email to** - fill in the email address to which a new quote request notification will be sent. Leave empty to disable notifications.

**Email Sender** - choose an email sender contact.

**Email Template** - specify an email template to be used for admin user notifications.

---

## Auto Reply to Customers

With the extension you are able to use auto replies to quote requests. Inform customers that their requests are delivered and are being processed.

### Auto Reply Email Options

## Frontend Examples

Display custom buttons instead of the “Add to Cart” option.

The screenshot displays a product listing interface. On the left, a 'Shopping Options' sidebar contains a list of filters: CATEGORY, ACTIVITY, GENDER, MATERIAL, and PRICE, each with a downward arrow. To the right of the sidebar, there are two grid icons and the text '9 Items'. The main content area shows two watches. The first is the 'Aim Analog Watch', which has a black dial and a black strap. Below it is a star rating of four orange stars and one grey star, with the text '2 reviews'. The second is the 'Endurance Watch', which is a digital watch with a silver case and a black strap. Below it is a star rating of four orange stars and one grey star, with the text '3 reviews'. Both watches have a 'Contact us' button below them, which is highlighted with a red rectangular border.

Hide prices from specific customer groups, but still let them add products to Wishlists and Compare.
