Copy Categories Rules

Copy Child Categories Rules

Select Parent Category - choose the parent category to place a duplicated one.

Copy Product Relations - set to Yes to copy all product relations from the original category.

Include Subcategories - enable the option to duplicate all subcategories as well.

Copy Categories Rules - choose Yes to copy the rules to include products in a particular category. The feature is relevant for the Magento Enterprise edition.

Copy Child Categories Rules - you can duplicate category rules for child categories too.

Search and Replace

You can make replacements in the following fields of the duplicate category: name, description, meta keywords, meta description. Words from the 'Search For' fields will be replaced with the content from the 'Replace With' field.

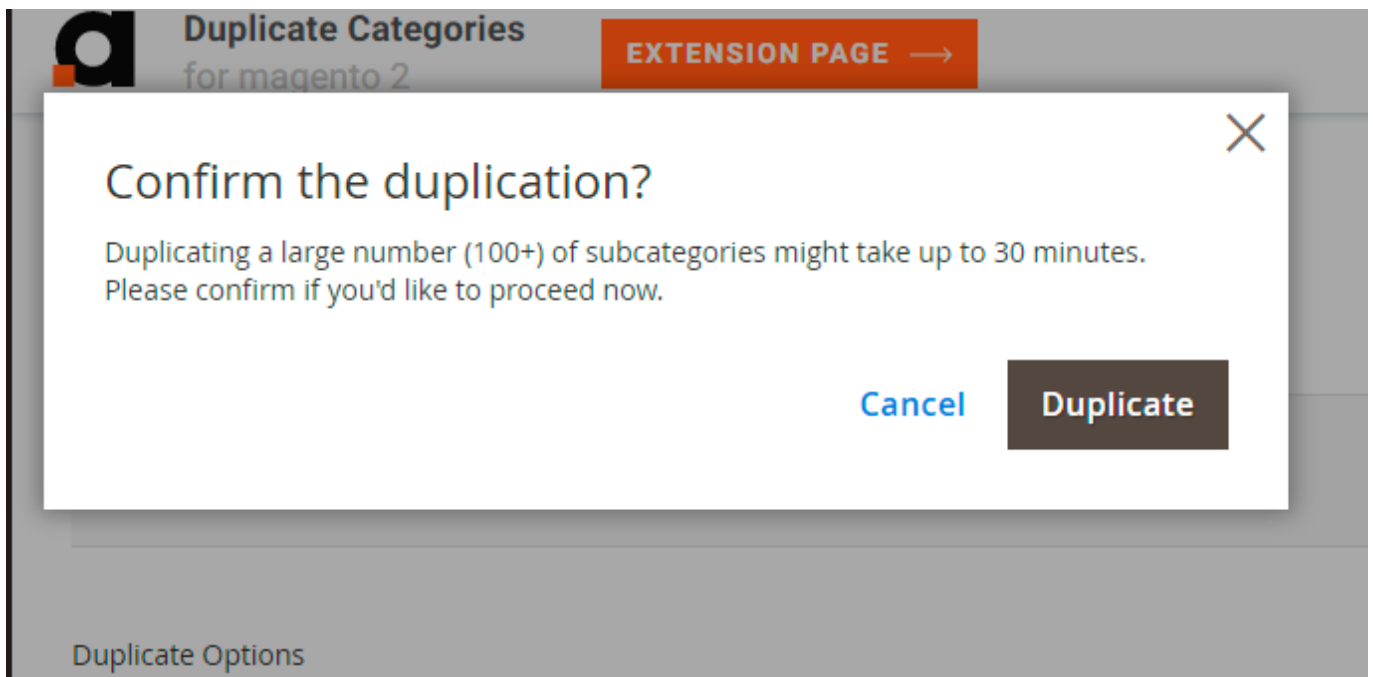

If you don't need to make any replacements, leave these fields empty.

Search and Replace

 Leave empty if you do not need to search and replace.

Search For:	Replace With:
<input type="text" value="Shirt"/>	<input type="text" value="T-shirt"/>
<input type="text" value="Laptops"/>	<input type="text" value="Cheap laptops"/>
<input type="text"/>	<input type="text"/>
