Guide for Facebook Comments Magento 2

The extension allows you to improve your business Facebook presence and significantly live up your product pages. Let customers share their views with their friends and potential clients. Get more reliability and trust for your company name.

General Settings

To configure the extension, please go to **Admin panel** → **Stores** → **Configuration** → **Facebook comments**.

Facebook AppID - For a proper extension performance, please visit a [Facebook Developers](#) to create an App ID.

Review Title - Choose a name for comments and reviews block.

Reviews per Page - Set the appropriate amount of comments per single product page.

Chronological Order - Select Yes, to display comments in a chronological order.

No - to display the newest first.

General Settings

Facebook AppID <small>[store view]</small>	<input type="text" value="2126329617593861"/>
	Get at http://www.facebook.com/developers/createapp.php
Review Title <small>[store view]</small>	<input type="text" value="Facebook Reviews"/>
	Leave empty to use the product page title
Reviews per Page <small>[store view]</small>	<input type="text" value="10"/>
	Leave empty to use the product page title
Chronological order <small>[store view]</small>	<input type="text" value="No"/> ▼

Display Options

Block width (px) - Set an appropriate width of the comments' block in pixels.

No default styles - Choose whether to use default CSS styles or set a **Custom CSS**.

Display Options

Block Width (px) <small>[store view]</small>	<input type="text" value="632"/>
No default styles <small>[store view]</small>	<input type="text" value="No"/> ▼
Custom CSS <small>[store view]</small>	<input type="text" value="amfbreview.css"/>

Post Comment

When you finish with the configuration, you have one more block (e.g. *Facebook Reviews*) next to the blocks with *Details*, *More Information*, and *site Reviews*.

To post a review, a customer has to log in with Facebook account.

Also post on Facebook - Customers can share their opinions with friends and duplicate their reviews to the their Facebook feed.

Engage with more customers on Facebook with Dynamic Ads and a handy generator of **Facebook product feeds for Magento 2**.
