For more details see how the [Grouped Options](#) extension works.

Guide for Grouped Options for Magento 2

Combine similar options of any attribute to make your store navigation more capacious and convenient with Magento 2 Grouped Options extension. This functionality is extremely useful for color mapping, but it is applicable to any attribute with many values. Grow your sales by displaying more related products in search results and reducing buyer's time on choosing product variants.

- Unite multiple attribute options into groups
- Set custom titles and swatches for grouped options
- Specify position for added groups
- Manage all grouped options in a handy grid

Manage Grouped Options From The Grid

To create and edit grouped attribute values go to **Stores → Attributes → Manage Grouped Options**.

Manage Grouped Options

demouser

Add New Group

Filters Default View Columns

Actions 4 records found (1 selected) 20 per page 1 of 1

ID	Position	Title	Status	Attribute	Options	Action	
<input checked="" type="checkbox"/>	1	1	Red	ACTIVE	Color	Orange Red Tomato Pink Light Pink Indian Red	Select
<input type="checkbox"/>	2	2	Blue	ACTIVE	Color	Blue Light Blue Sky Blue Navy Dark Blue	Select
<input type="checkbox"/>	3	3	Green	ACTIVE	Color	Green Deep Green Bright Green Light Green	Select
<input type="checkbox"/>	4	3	Winter Activities	ACTIVE	Activity	Sledging Skating Skiing	Select

You can manage all created groups of options from one grid without opening them in a new window. Right from the grid, you can easily adjust the title of any group, its position, status, and remove or add particular options to the group.

ID	Position	Title	Status	Attribute	Options	Action	
<input checked="" type="checkbox"/>	1	1	Red	Active	Color	Select...	
<input type="checkbox"/>	2	2	Blue	ACTIVE	Color	Blue Light Blue Sky Blue Navy Dark Blue	Select

Add & Edit Grouped Options

Before creating a group of options, you may go to the needed attribute settings page **Stores** →

Attributes → Product → Manage Swatch and check if all required values for this attribute are added. Add new ones if needed.

- Manage Labels
- Storefront Properties

Attribute Properties

Default Label *

Catalog Input Type for Store Owner

Values Required

Update Product Preview Image Filtering by this attribute will update the product image on catalog page

Use Product Image for Swatch if Possible Allows use fallback logic for replacing swatch image with product swatch or base image

Manage Swatch (Values of Your Attribute)

	Is Default	Swatch	Admin	Default Store View	
	<input checked="" type="radio"/>		<input type="text" value="Black"/>	<input type="text"/>	
	<input type="radio"/>		<input type="text" value="Green"/>	<input type="text"/>	
	<input type="radio"/>		<input type="text" value="Lavender"/>	<input type="text"/>	
	<input type="radio"/>		<input type="text" value="Orange"/>	<input type="text"/>	
	<input type="radio"/>		<input type="text" value="Red"/>	<input type="text"/>	
	<input type="radio"/>		<input type="text" value="Navy"/>	<input type="text"/>	

Add Swatch

Then, return to the 'Manage Grouped Options' grid page (**Stores → Attributes → Manage Grouped Options**) and hit the **Add New Group** button to create a new group of options or access any of them (in the 'Action' column click Select → Edit) to make changes.

Attribute Options

Select options for this attribute group	
<input type="checkbox"/> Dark Blue	
<input checked="" type="checkbox"/> Tomato	
<input checked="" type="checkbox"/> Pink	
<input checked="" type="checkbox"/> Light Pink	
<input checked="" type="checkbox"/> Indian Red	

Status - Set to 'Active' to enable filter group on the frontend.

Group Title - Specify different titles for attributes' group for each view store individually.

Group Code - Specify a group code that will be used in the URL of the filter results page by default

Swatch - Select the main thumbnail swatch for the whole group.

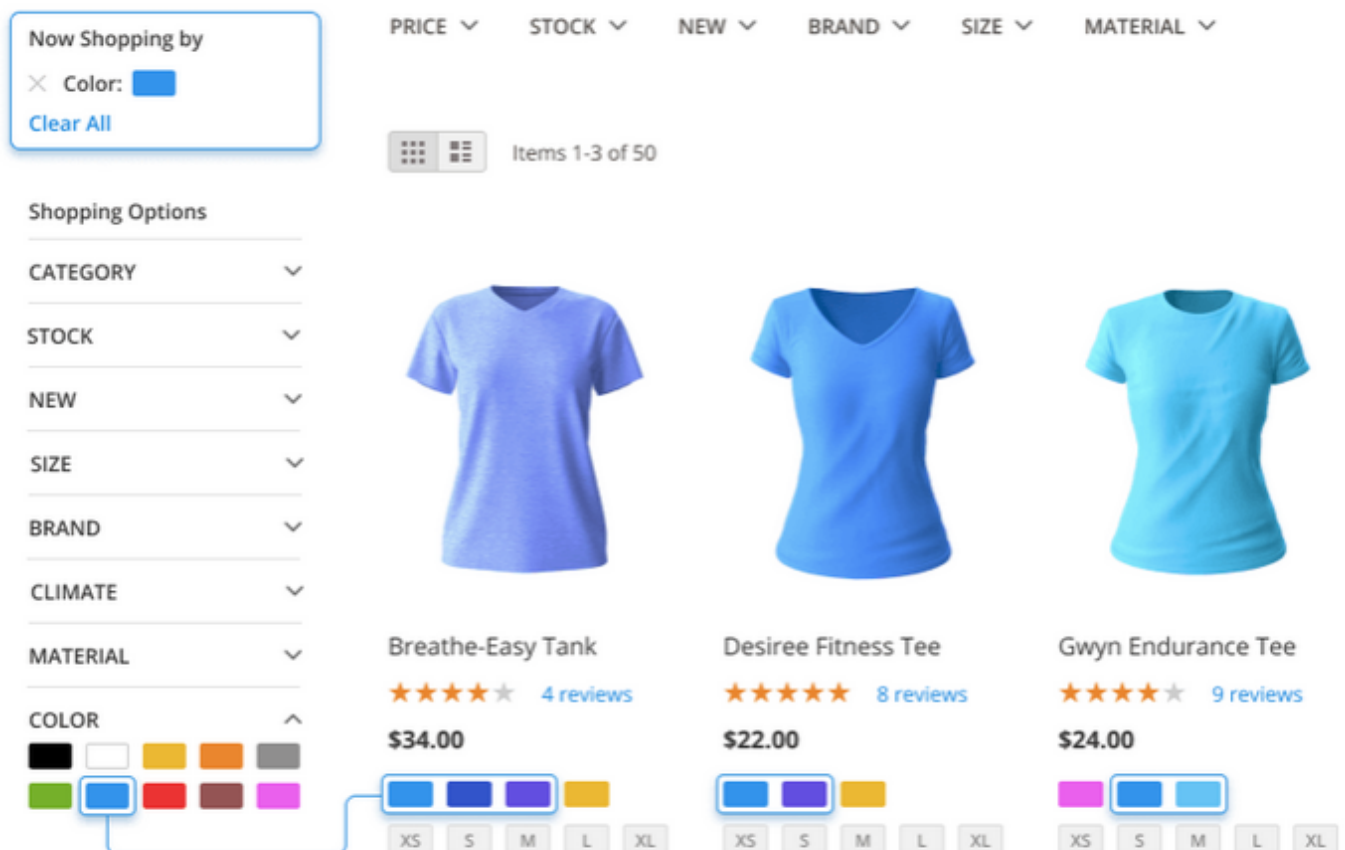

Position - Set the display position for your frontend filters block. This setting defines the position only among the Group Attribute Options (created within the same attribute). It doesn't affect the positioning of common attribute options in the filter.

Attribute - Select an attribute type for which you want to create a group.

Attribute Options - Once the attribute is selected you'll see corresponding attribute options. Select the ones that you want to gather in a group.

Frontend Example

See the extension in action. When a customer selects the icon of an attribute group ('Blue' for example), the module will display all products with the attributes from the 'Blue' group.

Find out how to install the **Grouped Options** extension for Magento 2 via [Composer](#).
