Guide for Shipping Cost Calculator for Magento 2

Provide your customers with shipping rates calculation before the checkout. Improve their shopping experience and reduce abandoned cart rate.

- Let customers check shipping cost beforehand
- Set a suitable position for the shipping calculator
- Hide the calculator for particular categories and products
- Save your customers' time by setting default values
- Inform shoppers if shipping to their area is possible

Before Configuration

To display actual information about shipping rates, you need to go to **Stores → Configuration → Sales** and configure the rates in the **Shipping Methods** tab.

The screenshot shows the Magento 2 Configuration interface. At the top, the user is logged in as 'demouser'. The 'Store View' is set to 'Default Config'. A 'Save Config' button is visible in the top right. On the left sidebar, the 'SALES' menu is expanded to show 'Shipping Methods', which is highlighted. Below the sidebar, a list of shipping methods is displayed, each with a dropdown arrow to its right:

- Flat Rate
- Free Shipping
- Table Rates
- Magento Shipping
- UPS
- USPS
- FedEx
- DHL

Configuration

To configure the Shipping Calculator extension, go to **Stores → Configuration → Amasty Extensions → Shipping Calculator**.

To enable shipping rates calculating before the checkout, expand the **General** tab.
